Detailed Action

Reasons for Allowance

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

This application is for an optical disc loading apparatus.

- **Claim 1** specifies an optical disc loading apparatus, which requires:

"...wherein the disc path control member is formed so that an inserted disc contacting to the main roller, the disc guide and the path control member simultaneously has a proceeding direction different from that of an inserted disc contacting to the main roller, the disc guide simultaneously,

the small disc stopping member has a certain height in order to stop a disc proceeding while simultaneously contacting to the main roller and the disc guide, and in order not to stop a disc proceeding while simultaneously contacting to the main roller, the disc guide and the path control member,

and the large disc stopping member has a certain height in order to stop a disc proceeding while simultaneously contacting to the main roller, the disc guide, and the path control member."

These features, in combination with the other features of Claim 1, are not anticipated by, nor made obvious over, the prior art of record.

- **Claim 13** specifies an optical disc loading apparatus, which requires:

"... a large disc distinguishing means for distinguishing an inserted large disc; and a roller frame driving means for rotating the roller frame in order to make the large disc inserted by the distinguishing means not to be stopped in the small disc stopping member."

These features, in combination with the other features of Claim 13, are not anticipated by, nor made obvious over, the prior art of record.

3. The closest prior art is Nakatani et al (US 6411582). Nakatani et al shows a disc path control member (30) but does not show that it is formed so that an inserted disc contacting to the main roller, the disc guide and the path control member simultaneously has a proceeding direction different from that of an inserted disc contacting to the main roller, the disc guide simultaneously.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
